

The objective of the Emergency Tracking Tool (ETT) - Movement Alert is to collect information on large and sudden population movements, and to provide support to the Government and the humanitarian community by disseminating data on IDPs for ensuring effective humanitarian response to the affected population. Information is collected through key informant interviews or direct observation. Findings reported below are indicative and represent movement trends observed within the reporting period. Movements remain dynamic within and across districts. Additional information can be shared upon request.

## MOVEMENT ALERT

### SUMMARY OF THE EVENT

Following recent attacks by Non-State Armed Groups in Nangade, Displacement Tracking Matrix (DTM) teams have recorded the arrival of 724 displaced individuals, in both Nangade and Mueda, between 17-20 February 2022. At least 40 IDPs have been identified with vulnerabilities: 27 elderly individuals, 9 pregnant women, and 4 persons with disabilities. Locations of origin prior to displacement have been mapped in the localities of Aldeia de Chacamaba, Ntambalagoa, Rovuma, Chicuaia-velha, and Muiha. DTM Teams deployed at strategic points across host communities and sites in Nangade and Mueda districts have cumulatively observed 6,153 individual displacement movements from Nangade as a result of sporadic attacks recorded between 04 January-20 February.
